

Partnership Overview

PrestigePEO is pleased to announce our partnership with ScoutLogic for all your background needs! ScoutLogic is a full service, pre-employment background check company. Their unique “Scout” delivery model returns reports faster, with less consumer disputes, and higher quality than the industry’s traditional credit bureau service model. Scouts are researchers who are assigned to specific clients, so instead of dealing with account managers who don’t know the industry or faceless 1-800s call center agents, your Scout is an extension of your team. We measure our Scouts on their performance for **you**, including report performance and Net Promoter Scores. ScoutLogic’s culture aligns with PrestigePEO’s which is to provide white glove service to their clients. Think of ScoutLogic as the “PrestigePEO of background services”.

SCOUTLOGIC VALUE FOR PRESTIGE CLIENTS

Faster Reports

With our Scout service model, we are able to return checks faster than our competition. Most of our database searches are completed in under a day and we average under two days for reports with verifications.

Easier To Use

Our platform averages under 2 minutes for data and consent collection for criminal reports and under 5 minutes for verification reports. Our platform is also mobile-optimized so candidates can provide information on their smartphones.

Better Experience

ScoutLogic has a unique model in which your report researcher is also your point of contact. This guarantees that when you have a question, you are talking to the person working the report. With this approach, we provide the most accurate answers and in the shortest amount of time.
