

## Why is having a good vision plan so important?

Regular visits to your eye care professional are not only important for your eyes. Through a routine exam, eye doctors can potentially spot serious health problems like diabetes, high blood pressure, heart disease, certain cancers and other conditions.<sup>1</sup>

That's why, even if you have perfect vision, yearly exams may be important.

### **Make vision care a priority.**

### **An example of how Vision Insurance can help.**

We avoided going to the eye doctor due to the high cost. Thanks to **vision insurance**, we saved on eye exams and new eyewear for the whole family. Our child is doing better in school with glasses, and I love my contact lenses. This coverage is definitely worth it, and it helps us stay within our budget.\*

\*This is a fictional example. Davis Vision and MetLife do not claim that these are typical results that members will generally achieve.
