## Seamlessly Integrate Expense Reporting and Payroll

ExpensePath and PrestigePEO work together to seamlessly integrate expense reporting and payroll, enabling SMBs to provide a fully digital experience from request to reimbursement.

### Full Cycle Expense Reporting

With ExpensePath, employees simply enter their spending details and submit for approval. Managers and finance departments can quickly review and approve, then export data to initiate reimbursement via payroll with just one click. We'll also customize your system configurations to suit the needs of your business.

### Go Beyond Payroll

This powerful combination does more than enable process improvements. It also helps SMBs gain control of costs and implement smarter spending policies with automated violation tracking and customized trends and spend data reports. It goes beyond payroll to bring efficiency to time tracking, employee benefits, and other HR functions.
