

Elevate Your 401(k) Plan With Bespoke

What is the 401(k) Bespoke Portfolio Service?

- 401(k) Investing tool created by Slavic401k
- One of the first digital advisors
- Proprietary algorithm to customize investing plan
- Unique plan for individual goals and circumstances
- Fully integrated digital advisor
- Helps make retirement-readiness a reality

What is a robo-advisor?

Online wealth management service that provides automated, algorithm-based portfolio management advice without the use of human financial planners.

How does Bespoke work?

Bespoke factors in age and expected timeline to retirement to make a recommendation on how much to save, and how to escalate savings rate over time.

Cost-Savings Solution

Robo-advisors are typically low-cost, have low account minimums, and attract younger investors who are more comfortable doing things online.
